

Name _____

Date _____

Name that Number BINGO

Cut out the number cards and put in a hat or bowl. Hand out one Bingo Sheet to each student (each card should be different). The caller pulls out one number card at a time and calls out the number. If students have that number on their board, they cover it with a foam circle or other item. A student wins by getting four numbers in a row horizontally, diagonally or vertically, and shouting "Bingo!"
