

A Christmas Carol

Reading Comprehension - Character Identification

Use the following chart to organize all the main characters of *A Christmas Carol* by Charles Dickens. Be sure to include a description of each character including key words to describe the way the character looks, the way they act, and what key items in the story are important to the character.

The chart consists of seven blank character cards arranged on a background of diagonal pink and white stripes. Each card is a light beige color with a white ribbon banner at the top. The cards are arranged in three rows: one large card at the top, two smaller cards in the middle row, and four smaller cards in the bottom row. The cards are intended for students to write descriptions of characters from the story.
