

## Abbreviations for Customary Units of Measurement

**Part 1:** Review the abbreviations in the chart below.

Let's talk about **abbreviations!** This is the short form of a word, used to condense what you're writing.

<u>Length</u>	<u>Abbreviation</u>	<u>Weight</u>	<u>Abbreviation</u>	<u>Capacity</u>	<u>Abbreviation</u>
inch	in.	ounce	oz.	pint	pt.
foot	ft.	pound	lb.	gallon	gal.
mile	mi.			quart	qt.
yard	yd.			cup	cp.

**Part 2:** Fold along the dotted line to cover the chart. Then, underline the unit of measurement in each sentence and write its abbreviation on the answer line.

1. Mrs. Wyatt runs five miles to work every morning. \_\_\_\_\_
2. The swimming pool holds 3,000 gallons of water. \_\_\_\_\_
3. The baseball that we use in our league weighs five ounces. \_\_\_\_\_
4. Dimitri and his friends ate three pints of ice cream after school. \_\_\_\_\_
