

Math Lab: Addition #1

Add the numbers on each formula.

Fill in the + and = symbols, then write the sum.

$$10 \quad _ \quad 5 \quad _ \quad \boxed{_}$$

$$8 \quad _ \quad 4 \quad _ \quad \boxed{_}$$

$$9 \quad _ \quad 9 \quad _ \quad \boxed{_}$$

$$6 \quad _ \quad 7 \quad _ \quad \boxed{_}$$

Write the missing number to equal the sum on each scanner.

$$8 \quad + \quad _ \quad = \quad \boxed{14}$$

$$3 \quad + \quad _ \quad = \quad \boxed{12}$$

$$9 \quad + \quad _ \quad = \quad \boxed{16}$$

$$11 \quad + \quad _ \quad = \quad \boxed{19}$$

Circle the two formulas that when added will equal the sum of 15.
