

Addition With Modified Tens Sticks

Use the tens sticks to add the numbers and identify how many you have in the tens and ones place. Then change your number sentence to show the tens plus the ones.

Example:

Paige had 5 flowers. Aminata gave her 8 more. How many did she have in all?

$$5 + 8 = \underline{13}$$

There is 1 ten and 3 ones.

$$\underline{10} + \underline{3} = \underline{13}$$

Now you try!

Brennan had 4 apples. Alex gave her 13 more. How many apples did she have in all?

$$4 + 13 = \underline{\quad}$$

There is ten and ones.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$
