True or False

1. Chameleons' tongues are as long as their bodies.
2. Chameleons can sleep upside down.
3. Chameleons make good pets since they are happy in captivity.

ANSWERS

Chameleons are very sensitive and are happiest and live longest in their natural habitat.

1. T 2. T 3. F

CHAMELEON FACTS

Chameleons change color in response to heat, light, mood, and as a defense against predators.

Their eyes can rotate and swivel independently, so they can see behind them, or see two things at the same time.

JUST JOKING

Why was the chameleon confused?

He fell in a bag of Skittles!

Color the Chameleon

Chameleons often change colors. Color this one any way you want to.
