At the Toy Store

Solve each problem by using the toy store
to fill in the equations.

Jennifer has 7¢. She bought Jacks and a
teddy bear. How much does she have left?

$$-\ \frac{\rule{2cm}{0.4pt}}{\rule{2cm}{0.4pt}}$$

Matt bought a kite and crayons.
How much did he spend?

$$+\ \frac{\rule{2cm}{0.4pt}}{\rule{2cm}{0.4pt}}$$

Shannon has 10¢. She bought a skateboard.
How much does she have left?

$$-\ \frac{\rule{2cm}{0.4pt}}{\rule{2cm}{0.4pt}}$$

Joe bought crayons and Jacks.
How much money did he spend?

$$+\ \frac{\rule{2cm}{0.4pt}}{\rule{2cm}{0.4pt}}$$
