

# BIRD BRAINED

Orin likes to think of himself as an ornithologist, someone who studies birds. However, he needs to get his facts straight. Which of the following statements are NOT true?

- 
- 
- 
- Most birds are cold-blooded.
- Many birds have some scales.
- All birds have wings.
- All birds can fly.
- All birds lay eggs.
- All birds have four-chambered hearts.
- All birds build nests.
- All birds have feathers.
- Most birds have hollow bones.
