

Brazilian Rainbow Boa

Habitat: woodland forests, savannas, and rainforests of Brazil, southern Venezuela, Guyana, French Guiana, and Suriname

Size: 4-6 feet long, 2-3 pounds

Lifespan: 10-30 years

Eats: rodents, birds, and lizards

Rainbow boas are great swimmers, but usually hunt on land.

They are nocturnal.

They are red-orange with black rings.

They wrap around their prey and squeeze it.
