

Complete a Bar Graph

Read the sentences below and complete the bar graph by drawing and coloring bars. Then answer the questions.

8 people like Chicago
6 people like New York City
7 people like Baltimore
10 people like San Francisco
7 people like Detroit

1. Color the two cities that received the same number of votes red.
2. Which city is the most popular?
3. Which city is the least popular?
4. What is the difference in votes between San Francisco and New York City?
