

But They ALL Have R-Controlled Vowels!

Name: _____

Date: _____

- If the letter "r" comes after a vowel, the sound of the **vowel** changes.
- In words like: **shark, her, girl, worm,** and **hurt**, each vowel is different, but they make the **same "er" sound**. Some r-controlled vowels make other sounds, like: **cord** or **bar**. These vowel sounds vary slightly from typical short vowel sounds.

Use context clues to find and insert the correct missing word in each sentence. Use only words from the list, but there's only one catch: Each missing word must include an r-controlled vowel!

Word List

nursing, burn, **herds, partner, bars, perching, twirlers, cartons**, worst, girlfriends, **workers**, chirpers, **first**, thirst, **fern**, turnout

1. Looking up at the noisy tree, she remarked, "There's a branch full of _____ you don't hear everyday!"
