

# CHRISTMAS DIVISION #5

**MERRY CHRISTMAS!**

Santa's left lots of presents under the tree! Solve the division problems below and have a happy holiday!

|                                |  |  |
|--------------------------------|--|--|
|                                |  |  |
| $9 \div 3 = \underline{\quad}$ |  |  |
|                                |  |  |

|                                 |  |  |
|---------------------------------|--|--|
|                                 |  |  |
| $15 \div 3 = \underline{\quad}$ |  |  |
|                                 |  |  |

|                                |  |  |
|--------------------------------|--|--|
|                                |  |  |
| $6 \div 2 = \underline{\quad}$ |  |  |
|                                |  |  |

|                                 |  |  |
|---------------------------------|--|--|
|                                 |  |  |
| $12 \div 3 = \underline{\quad}$ |  |  |
|                                 |  |  |

|                                 |  |  |
|---------------------------------|--|--|
|                                 |  |  |
| $10 \div 5 = \underline{\quad}$ |  |  |
|                                 |  |  |

|                                |  |  |
|--------------------------------|--|--|
|                                |  |  |
| $8 \div 2 = \underline{\quad}$ |  |  |
|                                |  |  |

|                                 |  |  |
|---------------------------------|--|--|
|                                 |  |  |
| $12 \div 6 = \underline{\quad}$ |  |  |
|                                 |  |  |

|                                |  |  |
|--------------------------------|--|--|
|                                |  |  |
| $4 \div 2 = \underline{\quad}$ |  |  |
|                                |  |  |

|                                 |  |  |
|---------------------------------|--|--|
|                                 |  |  |
| $18 \div 9 = \underline{\quad}$ |  |  |
|                                 |  |  |

|                                 |  |  |
|---------------------------------|--|--|
|                                 |  |  |
| $24 \div 4 = \underline{\quad}$ |  |  |
|                                 |  |  |

|                                 |  |  |
|---------------------------------|--|--|
|                                 |  |  |
| $16 \div 8 = \underline{\quad}$ |  |  |
|                                 |  |  |

|                                 |  |  |
|---------------------------------|--|--|
|                                 |  |  |
| $14 \div 2 = \underline{\quad}$ |  |  |
|                                 |  |  |
