

CHRISTMAS WORD PROBLEMS #10

Solve the following word problems.

A group of 10 kids wearing Santa hats marches in a Christmas parade. If 4 of them are girls, how many are boys?

On Christmas Eve, 12 girls and 15 boys stay up late waiting for Santa. If half of the girls and $\frac{1}{3}$ of the boys fall asleep at midnight, how many kids are still awake?

There are 24 kids in a third grade art class. For Christmas, 8 of the kids draw snowmen, 4 of the kids draw Santa and 6 of the kids draw candy canes. How many kids draw other things?

Will makes homemade gifts with his best friend Mike. If Will makes twice as many gifts as Mike, and Mike has 15 gifts, how many gifts does Will make?

Patricia eats a dozen Christmas cookies. How many is a dozen?
