

# CHRISTMAS WORD PROBLEMS #2

Solve the following word problems.

At a Christmas party, there are 18 adults, 5 girls and 4 boys. How many people are at the party in all?

---

There are 15 trees at the Christmas tree lot when it opens. By the end of the day, there are only 8 trees left. How many trees have been sold?

---

Brian sings Christmas carols around his neighborhood for 45 minutes. His friend Robert sings for an hour. Which boy takes longer to sing Christmas carols?

---

Linda has 12 candy canes. She gives half of them to her brother Eric. How many candy canes does Linda have left?

---

There are 20 students in a Christmas choir. The choir teacher lets 12 of the students hold candles, and the rest of the students ring bells. How many students ring bells?

---
