

Name _____

Date _____

Co-Craft Questions: Division Word Problems

- Write a division expression.
- Write a word problem sentence that shows the divisor (or the part). (For example, "The class mailed 9 letters of equal weight to different schools.")
- Write the sentence that talks about the dividend (or the whole). (For example, "They used 54 stamps in all.")
- Draw a visual for each sentence.
- Ask the question that describes the quotient. (For example, "How many stamps did they use on each envelope?")

Division Expression: _____ ÷ _____

Divisor Sentence (Part)	Question with the Quotient (Part)
Dividend Sentence (Whole)	

Possible language frames:

<ul style="list-style-type: none">- The class has _____ total...- The total...- They used/bought/sent...	<p>How many...in all? How much do each...?</p>
