

Holiday Wreath Project

****Try printing out on slightly thicker paper if you plan on gluing extras****

1. Color the wreath for a festive holiday decoration!

2. Draw your own decorations or glue special extras for a 3D effect. Try:

- buttons
- uncooked macaroni
- glitter or sequins
- cotton balls for "snow"
- beads

3. When you're done, carefully cut out your wreath along the dotted line (or have someone help you!) Hang it up to spread holiday cheer!
