

Color the Numbers!

Color the numbers that follow the rules!

Example: Color all of the numbers that have a 0 in the ones place purple.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Now you try!

1. Color all of the numbers that have a five in the ones place yellow.
2. Color all of the numbers that have a 6 in the tens place red.
3. Color all of the numbers that have the same number in the tens and the ones place green.

Did any of the numbers get colored twice?

Explain to a partner what two rules those numbers followed.
