

COLORS: Learn how colors work

All the colors of the rainbow together are called a spectrum.
There are three primary colors that can mix to make other colors!
Can you name the three primary colors?

Red

Orange

Yellow

Green

Blue

Indigo

Violet

Create your own color spectrum!

When all of the colors mix together, they create white!

Try cutting out this color wheel, or color in your own below. Poke a pencil through the center, and spin the wheel. What happens?
