# Common Noun Ice Cream Floats

A **common noun** names a person, place, or thing. It is not specific.

**Example:** school

**Non-example:** Beedee Elementary School

Directions: Color the ice cream scoops that are labeled with common nouns. Put an **X** through the ice cream scoops that are not labeled with common nouns. For added fun, cut out the colored ice cream scoops and build a float in the empty bowl! An example has been done for you.
