

Cones in Different Settings

A **cone** is a round 3-dimensional shape that:

- has a circular base, or bottom
- comes to a point at the top

Directions: Circle the real-life examples of cones. Then categorize all the objects in the chart. Some objects can fit in more than one category. For an added challenge, name the item and the 3-D shape.

Where can you find the object?

(Note: Some objects can fit in more than one category!)
