How many flies are there? _____

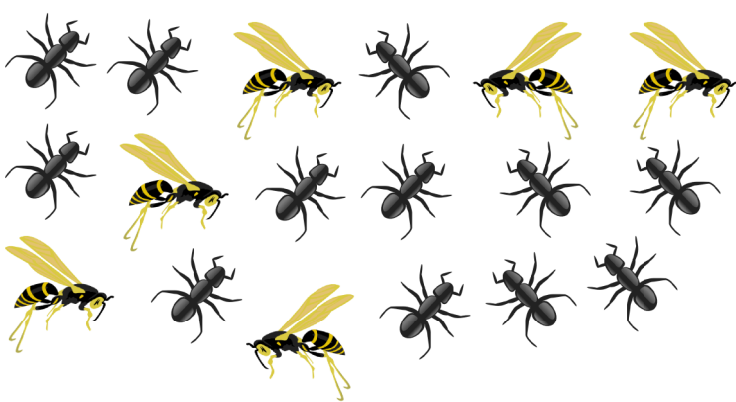

How many dragonflies are there? _____

How many butterflies are there? _____

How many caterpillars are there? _____

How many ladybugs are there? _____

How many ants are there? _____

How many bees are there? _____

Describe your garden. Circle the correct choices based on your answers above.

My garden has a lot of insects. I have more (ants , flies) than any other insect. There are (more , fewer) caterpillars than there are dragonflies. My garden has (two , three) types of insects that are green. It also has (four , five) kinds of insects that can fly. Bugs like my garden!
