

10 Things to Do with a Piece of Paper

★ Snowflakes ★

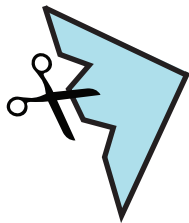

Print out the next page and cut on the dotted lines.
Fold on the solid lines. Follow the instructions below.

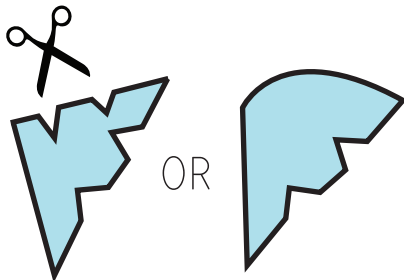

Step 1: Start by cutting out the square piece of paper on the next page.

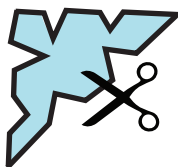

Step 2: Fold the paper on the solid lines to form a triangle. Make sharp creases.

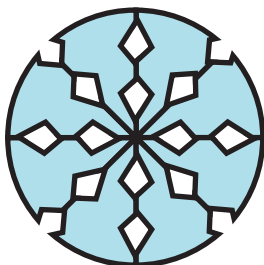

Step 3: Begin cutting small shapes on the side with the fold. Be creative. But don't cut through the middle of the paper!

Step 4: Cut on triangles on the top of the paper. You can also cut a curve to make your snowflake a circular shape.

Step 5: Cut small shapes on the right side. Make the cuts the same as the left side, or try something new.

Step 6: Unfold the paper. You can decorate your windows or make a garland or with your snowflakes!
