# Describe in Pairs

Directions: Consider a problem or topic and follow the steps outlined below to help you practice describing the problem and how to solve it.

**Pre-Write:** Draw a picture and write about what you know about the problem. Then, share your ideas with your partner.

**Notes After Sharing with Partners:** Write down ideas your partner gives you and the changes you will make to your explanation.

**Post-Write:** Rewrite your explanation about the problem based on your notes from the middle section.
