# Chinese New Year Design Your Own Zodiac

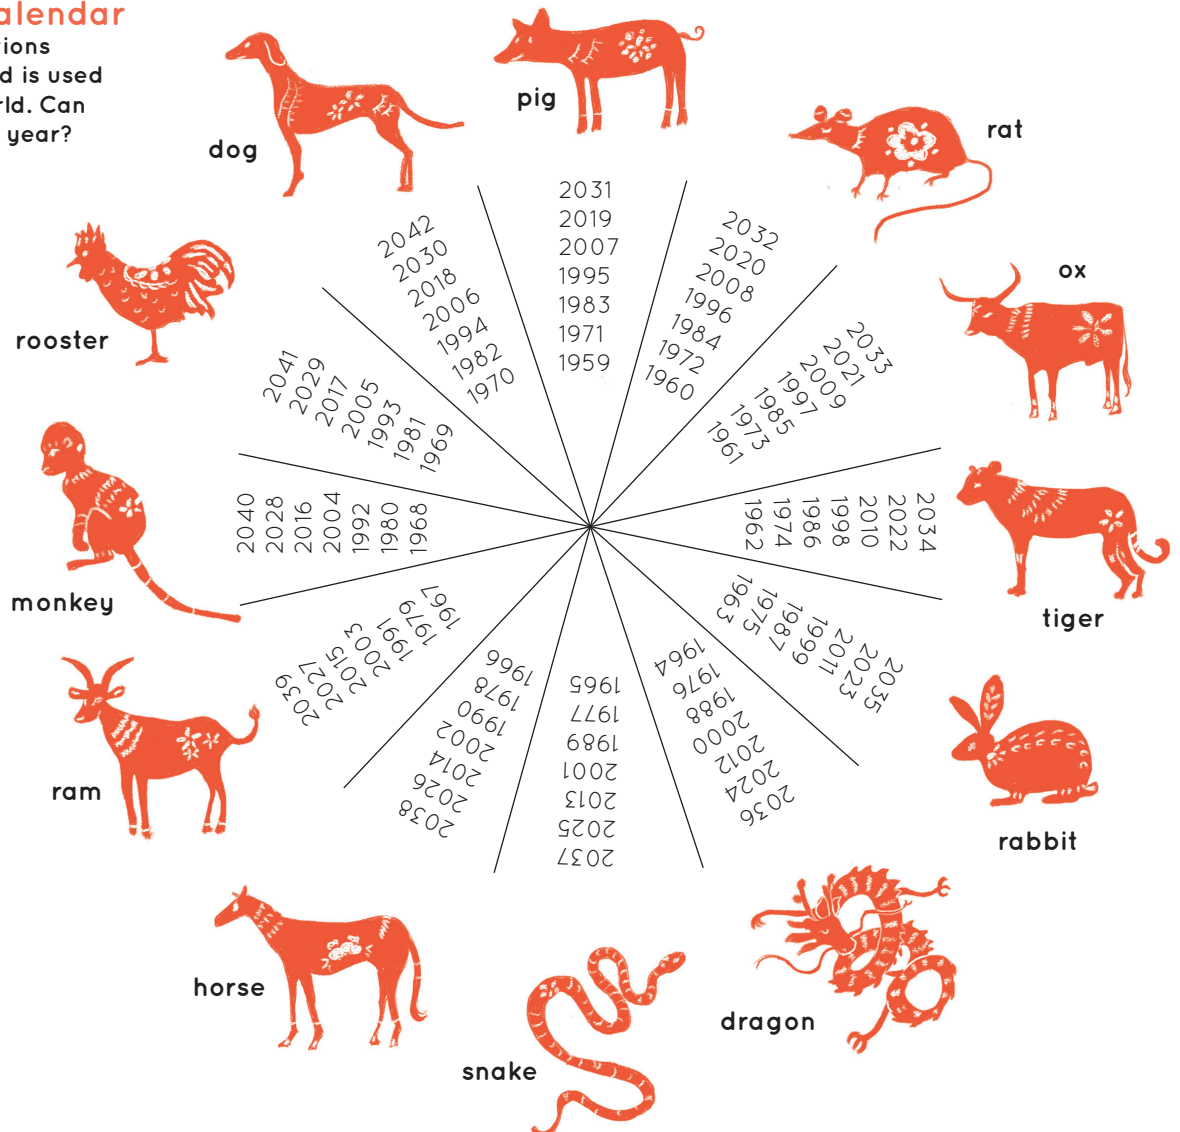

My turn at last!

The Chinese Zodiac calendar consists of 12-year cycles, with each year assigned a different animal. According to tradition, the year you are born reveals a lot about your character.

Look at the traditional Zodiac calendar, pictured here — then get creative and design a calendar of your own on page two. On page three, write a brief description of why you chose each animal. (Maybe they remind you of someone you know?)

**The zodiac calendar** has different variations throughout Asia and is used throughout the world. Can you spot your birth year?
