

# DIGIT JUGGLER #2

Learning to juggle is tricky, but all it takes is practice. Use the numbers given to write the correct subtraction problem. Start with the right-most digits and work to the left. Show your work.

- 1 ✓
- 2 ✓
- 4 ✓
- 6 ✓
- 7 ✓
- 9 ✓

$$\begin{array}{r} 27.4 \\ - 16.9 \\ \hline 10.5 \end{array}$$

+1  
7 - 6 = 1

Start by finding subtraction combinations that equal 9. Use trial and error to see if you have the right numbers left over.

6-1 9-4 7-2  
14-9

If you use borrowing, add 1 to the next digit of the answer in order to make it easier to solve

- 1
- 2
- 3
- 5
- 7
- 9

$$\begin{array}{r} \_ \cdot \_ \_ \\ - \_ \cdot \_ \_ \\ \hline 2.68 \end{array}$$

- 0
- 1
- 3
- 6
- 7
- 8

$$\begin{array}{r} \_ \cdot \_ \_ \\ - \_ \cdot \_ \_ \\ \hline 1.25 \end{array}$$
