

# DIGIT JUGGLER #4

Learning to juggle is tricky, but all it takes is practice. Use the numbers given to write the correct subtraction problem. Start with the right-most digits and work to the left. Show your work.

- 1 ✓
- 2 ✓
- 5 ✓
- 6 ✓
- 7 ✓
- 7 ✓

$$\begin{array}{r} 6.71 \\ - 2.57 \\ \hline 4.14 \end{array}$$

$6-2 = 4$   
 $11-7 = 4$   
 $5-1 = 4$

Start by finding subtraction combinations that equal 4. Use trial and error to see if you have the right numbers left over.

If you use borrowing, add 1 to the next digit of the answer in order to make it easier to solve
