

# Division :

## Dividing Cupcakes into Unequal Groups

Jane has 10 cupcakes that she wants to divide among her three friends.

Draw a picture to show how Jane can share the 10 cupcakes among her three friends.

A large, empty rectangular box with rounded corners, intended for drawing a picture to show how 10 cupcakes can be shared among three friends. A small cupcake icon is positioned at the bottom left corner of the box.

Were you able to divide the 10 cupcakes into equal groups? \_\_\_\_\_

Did you come up with one or more than one way to divide the 10 cupcakes?
