Division:

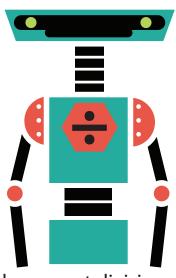

Repeated Subtraction

Review the diagram!

DIVIDEND QUOTIENT $15 \div 5 = 3$ DIVISOR

How to perform repeated subtraction:

- Subtract the divisor from the dividend until you reach zero.
- Count up how many times you subtracted.
- The number of times you subtracted equals the quotient!

Directions: Match the repeated subtraction on the left with the correct division sentence on the right.

$$\begin{array}{c|cccc}
18 & 12 & 6 \\
-6 & -6 & -6 \\
\hline
12 & 6 & 0
\end{array}$$

$$\begin{array}{c|c}
16 & 8 \\
-8 & -8 \\
\hline
8 & 0
\end{array}$$

It's your Turn!

Use repeated subtraction to solve $20 \div 5$. Show your work in the space provided. Write the quotient on the answer line:

$$20 \div 5 =$$
