

# Donut Division!

Find the **quotient**.

$$\begin{array}{r} \square \\ 4 \overline{)16} \end{array}$$

$$\begin{array}{r} \square \\ 2 \overline{)18} \end{array}$$

$$\begin{array}{r} \square \\ 9 \overline{)27} \end{array}$$

$$\begin{array}{r} \square \\ 6 \overline{)54} \end{array}$$

$$\begin{array}{r} \square \\ 8 \overline{)8} \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{)21} \end{array}$$

$$\begin{array}{r} \square \\ 4 \overline{)20} \end{array}$$

$$\begin{array}{r} \square \\ 8 \overline{)64} \end{array}$$

$$\begin{array}{r} \square \\ 2 \overline{)10} \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{)12} \end{array}$$

$$\begin{array}{r} \square \\ 6 \overline{)48} \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{)28} \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{)49} \end{array}$$

$$\begin{array}{r} \square \\ 8 \overline{)56} \end{array}$$

$$\begin{array}{r} \square \\ 6 \overline{)24} \end{array}$$

$$\begin{array}{r} \square \\ 5 \overline{)25} \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{)18} \end{array}$$

$$\begin{array}{r} \square \\ 9 \overline{)63} \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{)70} \end{array}$$

$$\begin{array}{r} \square \\ 11 \overline{)66} \end{array}$$
