

Draw & Add

challenge

Read the questions below and draw the pictures. Then count your pictures to find the answer.

Kiara has 10 bows and Lia has 10 bows. How many bows are there in total?

Diagram for Kiara and Lia's bows:

A light blue box on the left contains 10 bows arranged in three rows (4, 3, and 3). Below it is an orange rounded rectangle. To its right is a circle with a plus sign (+). Next is another light blue box, empty, with an orange rounded rectangle below it. To its right is a circle with an equals sign (=). Finally, there is a light green box, empty, with an orange rounded rectangle below it.

Nick has 9 flags and Rose has 6 flags. How many flags are there in total?

Diagram for Nick and Rose's flags:

A light blue box on the left is empty, with an orange rounded rectangle below it. To its right is a circle with a plus sign (+). Next is another light blue box, empty, with an orange rounded rectangle below it. To its right is a circle with an equals sign (=). Finally, there is a light green box, empty, with an orange rounded rectangle below it.

Dora has 7 marbles and Ben has 8 marbles. How many marbles are there in total?

Diagram for Dora and Ben's marbles:

A light blue box on the left is empty, with an orange rounded rectangle below it. To its right is a circle with a plus sign (+). Next is another light blue box, empty, with an orange rounded rectangle below it. To its right is a circle with an equals sign (=). Finally, there is a light green box, empty, with an orange rounded rectangle below it.

Ally has 12 cups and Jessy has 5 plates. How many dishes are there in total?

Diagram for Ally and Jessy's dishes:

A light blue box on the left is empty, with an orange rounded rectangle below it. To its right is a circle with a plus sign (+). Next is another light blue box, empty, with an orange rounded rectangle below it. To its right is a circle with an equals sign (=). Finally, there is a light green box, empty, with an orange rounded rectangle below it.
