

Draw & Add $+$ $+$ $+$

Read the questions below and draw the pictures. Then count your pictures to find the answer.

Loui has 4 cats and Jessy has 3 cats. How many cats are there in total?

Diagram for the first problem:

A light blue box contains 4 cat faces arranged in a 2x2 grid. Below this box is an orange rounded rectangle containing the number 4. To the right of this box is a green circle with a plus sign (+). To the right of the plus sign is another empty light blue box. Below this box is an empty orange rounded rectangle. To the right of this box is a green circle with an equals sign (=). To the right of the equals sign is an empty light yellow box. Below this box is an empty orange rounded rectangle.

Peter has 2 birds and Matt has 5 birds. How many birds are there in total?

Diagram for the second problem:

Three empty light blue boxes are arranged horizontally. Below the first box is an empty orange rounded rectangle. To the right of the first box is a green circle with a plus sign (+). To the right of the plus sign is the second empty light blue box. Below the second box is an empty orange rounded rectangle. To the right of the second box is a green circle with an equals sign (=). To the right of the equals sign is an empty light yellow box. Below the yellow box is an empty orange rounded rectangle.

Annie has 6 bells and Tanya has 4 bells. How many bells are there in total?

Diagram for the third problem:

Three empty light blue boxes are arranged horizontally. Below the first box is an empty orange rounded rectangle. To the right of the first box is a green circle with a plus sign (+). To the right of the plus sign is the second empty light blue box. Below the second box is an empty orange rounded rectangle. To the right of the second box is a green circle with an equals sign (=). To the right of the equals sign is an empty light yellow box. Below the yellow box is an empty orange rounded rectangle.
