

Draw & Add

challenge

Read the questions below and draw the pictures. Then count your pictures to find the answer.

Kilee has 4 blocks and Tamia has 6 blocks. How many blocks are there in total?

Diagram for Kilee and Tamia's blocks:

A light blue box contains 4 small squares arranged in a 2x2 grid. Below it is an orange box with the number 4 written in black. To the right is a purple circle with a plus sign (+). Next is another light blue box, empty, with an orange box below it. To the right is a purple circle with an equals sign (=). Next is a light green box, empty, with an orange box below it.

Tina has 6 markers and Chuck has 9 markers. How many markers are there in total?

Diagram for Tina and Chuck's markers:

A light blue box, empty, with an orange box below it. To the right is a purple circle with a plus sign (+). Next is another light blue box, empty, with an orange box below it. To the right is a purple circle with an equals sign (=). Next is a light green box, empty, with an orange box below it.

Shane has 2 books and Lisa has 12 books. How many books are there in total?

Diagram for Shane and Lisa's books:

A light blue box, empty, with an orange box below it. To the right is a purple circle with a plus sign (+). Next is another light blue box, empty, with an orange box below it. To the right is a purple circle with an equals sign (=). Next is a light green box, empty, with an orange box below it.

Roy has 11 robots and Remy has 8 robots. How many robots are there in total?

Diagram for Roy and Remy's robots:

A light blue box, empty, with an orange box below it. To the right is a purple circle with a plus sign (+). Next is another light blue box, empty, with an orange box below it. To the right is a purple circle with an equals sign (=). Next is a light green box, empty, with an orange box below it.
