

# Celebrate Earth Day

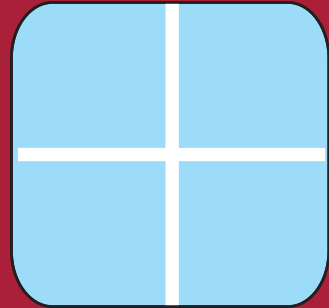

Every day is an opportunity to practice conservation and make choices that can have an impact over time. Celebrate Earth's special day by finding classmates or friends and fill in the names of those who fit one of the actions described.

Can you find someone who...

has planted a tree

brings lunch in a reusable lunch box

eats fresh fruits and veggies

reuses a bag when he/she goes shopping.

turns off the tap while brushing his/her teeth

has a compost pile

turns off lights when a room is empty or when leaving a room

donates clothes or toys

recycles

puts garbage in a trash can
