

Equal Groups Practice

Directions: For each array, separate into equal groups by circling them.
Write the number sentence that represents the array.

Example:

Split these 10 counters into two equal groups.

$$2 \times 5 = 10$$

How many counters are in each group? 5

1. Split these 18 counters into two equal groups.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

How many counters are in each group? _____

2. Separate these 15 counters into three equal groups.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

How many counters are in each group? _____

3. Split these 20 counters into four equal groups.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

How many counters are in each group? _____

4. Separate these 18 counters into three equal groups.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

How many counters are in each group? _____

5. Split these 8 counters into four equal groups.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

How many counters are in each group? _____

6. Separate these 22 counters into two equal groups.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

How many counters are in each group? _____
