

Estimate Square Roots

Estimate each square root by finding the two whole numbers that it falls between.

1.

$\sqrt{5}$ is between _____ and _____.

2.

$\sqrt{12}$ is between _____ and _____.

3.

$\sqrt{34}$ is between _____ and _____.

4.

$\sqrt{23}$ is between _____ and _____.

5.

$\sqrt{101}$ is between _____ and _____.

6.

$\sqrt{60}$ is between _____ and _____.

7.

$\sqrt{41}$ is between _____ and _____.

8.

$\sqrt{96}$ is between _____ and _____.

9.

$\sqrt{125}$ is between _____ and _____.

10.

$\sqrt{116}$ is between _____ and _____.

11.

$\sqrt{77}$ is between _____ and _____.

12.

$\sqrt{142}$ is between _____ and _____.
