

Everyone's eyes are different colors.
What color eyes do you see around you? Take a look!
Keep track below by placing an " $\mathbf{X}$ " in the box of the eye colors you see.
If the color isn't there, we've left the last two eyes blank for you to color in.

Complete the sentences below about what you found.
I have $\qquad$ eyes.

Most people had $\qquad$ eyes.

Not many people had $\qquad$ eyes.
