

Name _____

Date _____

Fact Detective

Parent Instructions: Using the blank strips below, write down at least 6 facts and 6 opinions to be placed around your home. Use the examples below to help guide you.

For added fun, have your child write down facts and opinions of their own and place them around the home. Then you can both be fact detectives as you search for each other's work around the house! Once all the statements have been gathered, sort them into facts and opinions, discussing how you can tell the difference!

Example Facts:

This is a brown cabinet.

Here is the cat's water bowl.

Example Opinions:

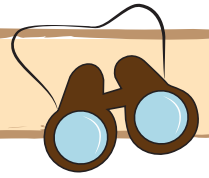

This window is dirty.

Penelope is the best stuffed animal.

Fact Detective

A large rectangular area defined by a dashed brown border, intended for writing or drawing.
