

# FACT FAMILY MIX UP!

Fill in the missing numbers in the fact family house. Then, find the roof that matches the bottom of the house and draw a line to connect the two pieces.

$$3 + \square = 10$$

$$7 + 3 = 10$$

$$\square - 3 = 7$$

$$10 - 7 = 3$$

$$\square + 8 = 9$$

$$8 + 1 = 9$$

$$9 - 1 = 8$$

$$9 - 8 = \square$$

$$2 + \square = 13$$

$$11 + 2 = 13$$

$$\square - 2 = 11$$

$$13 - 11 = \square$$
