

# FUNNY MONEY

On the *Funny Money Game Show*, the host tosses prize money in the air. The goal is to grab the bill that's worth the most money. But wait! There are three things to keep in mind:

- A bill with a picture of koala on it is worth triple the printed value.
- If any bill (without a koala) has a printed value that is even, divide the value in half.
- Any bill with a 7 on it is worthless.

Which bill is worth the most?
