

GLOSSARY FOR EL SUPPORT LESSON PLAN:

COMPARING TWO DIVISION METHODS

Word	Definition	Visual			
compare	to say or note how something is similar to or different from something else				
digit-by-digit method	like the standard algorithm, a step-by-step process to solve division problems one digit at a time	$378 \div 4$ $\begin{array}{r} 94 \\ 4 \overline{) 378} \\ \underline{-36} \\ 18 \\ \underline{-16} \\ 2 \end{array}$			
rectangle sections method	like the area model method, use rectangles and subtract the area until the total area is smaller than the divisor	$378 \div 4$ <table border="1" style="display: inline-table; margin-right: 20px;"> <tr> <td style="padding: 5px;">$\begin{array}{r} 90 \\ 378 \\ \underline{-360} \\ 18 \end{array}$</td> <td style="padding: 5px;">$\begin{array}{r} 4 \\ 18 \\ \underline{-16} \\ 2 \end{array}$</td> </tr> </table> $\begin{array}{r} 90 \\ +4 \\ \hline 94 \text{ R } 2 \end{array}$ <p style="margin-left: 20px;"> $90 \times 4 = 360$ $4 \times 4 = 16$ </p>	$\begin{array}{r} 90 \\ 378 \\ \underline{-360} \\ 18 \end{array}$	$\begin{array}{r} 4 \\ 18 \\ \underline{-16} \\ 2 \end{array}$	
$\begin{array}{r} 90 \\ 378 \\ \underline{-360} \\ 18 \end{array}$	$\begin{array}{r} 4 \\ 18 \\ \underline{-16} \\ 2 \end{array}$				
dividend	the total number that will be divided in a division expression				
divisor	the number of groups in a division expression				
expression	numbers and operators (such as + and ×) grouped together that show the value of something				

GLOSSARY FOR EL SUPPORT LESSON PLAN:

COMPARING TWO DIVISION METHODS

Word	Definition	Visual	
quotient	the answer to a division problem		
digit	a single whole number		
strategy	plan of action to solve a problem
