

# GLOSSARY FOR EL SUPPORT LESSON PLAN:

## THINK ABOUT WHAT WENT WRONG

Word	Definition	Visual	
subtraction	taking an amount away from a given quantity, comparing two quantities, or finding a missing part given the whole and the other part	 <p>The visual shows six muffins in a row, with two crossed out. Below this is a number sentence: <math>6 - 2 = 4</math>.</p>	
critique	to explain your opinion of the good and bad parts of something	 <p>The visual shows a person's head with a speech bubble that says "I think that..." pointing towards a small framed picture of a cat.</p>	
difference	how much two numbers differ from each other in value	 <p>The visual shows a subtraction problem: <math>746 - 214 = 532</math>. An arrow points to the result, 532.</p>
