Graphic Organizer: Problem & Solution

Good fiction texts are full of problems and solutions! They make the plot interesting.

A **problem** is something the character wants to figure out, change, or fix.
A **solution** is the way a problem is solved.

Characters must actively work to solve problems. Sometimes they try several ways to solve a problem.

Directions: Use this graphic organizer to record the characters' attempts at solving the problem.

Problem

Solution

What did the character do to try to solve the problem?
