

Greater Than, Less Than, Equal To Game: Two-Digit Numbers

Directions: For each round, each player chooses 2 number cards and tries to make the biggest number possible. Remember what you know about place value! Hint: The bigger number should go in the tens place.

- Each player will record their number and compare it to their partner's number. Then, decide which symbol ($<$, $>$, $=$) to write in the middle.
- The winner is the player with the bigger number.
- Move on to the next round.

Round	Player 1	Symbol < > =	Player 2	Winner
Example	53	<	74	Cuz-Cuz
