Hammerhead Shark

Hammerhead sharks are a kind of shark that have an unusual, flat-shaped head. Their eyes are on the sides of their head, allowing them to see better than most other kinds of sharks.

Directions:

1. Cut out the hammerhead shark's head on page 1 along the dotted line.
2. Cut out the two paper strips on this page, along the dotted line.
3. Tape the ends of the paper strips to each side of the hammerhead shark head cutout where the tabs say, "tape here."
4. Hold the headband up to your forehead and adjust the strips to fit around your head, and then tape them together.
