## Diamonds

Diamonds are thought to have been first discovered and mined in India. The Koh-i-noor is one of the oldest and most famous diamonds in the world. Koh-i-noor is Persian and means “mountain of light”. Koh-i-noor was mined at Kollur Mine, in the present state of Andhra Pradesh, India. It was originally owned by the Kakatiya dynasty, who installed the Koh-i-noor diamond in a temple as one of the eyes of the the presiding goddess of Warangal. The diamond was later confiscated from its original owners by invaders. In 1850, the jewel was stolen from India and delivered to the British monarchy by force. Today, the diamond is part of the British Crown Jewels.
