

# HEADINGS

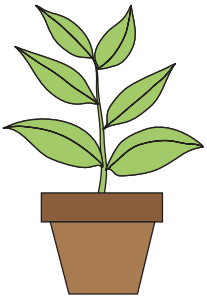

To help readers read information quickly and locate specific information, authors may use headings. Can you create headings for the following?

**Heading:** \_\_\_\_\_

Lions are members of the cat family. They live in groups called prides. Both male and female lions in the pride can roar, and roars can be heard miles away!

**Heading:** \_\_\_\_\_

Plants need several things to grow. They need water, air, and dirt. The sun also helps plants to grow. A small seed can become a big tree!

**Heading:** \_\_\_\_\_

Water goes through a special cycle. In the cycle it freezes into ice and melts onto water. It also evaporates into the air and forms clouds.
