

TANGRAM

The tangram is an intellectual puzzle game that originated in ancient China. “Tan” means “pieces”, and “grams” means “pictures”. A tangram consists of seven pieces in the shapes of triangles and quadrilaterals. Tangrams are also called “the seven pieces of cleverness”. The objective of the puzzle game is to create a silhouetted image or pattern using all seven pieces together. There are many images that can be made from the tangram pieces. These include basic geometric patterns, shapes of animals, and other objects.

Q&A:

1. This puzzle game is also called what?

2. What is the objective of this game?

3. Is there a parallelogram in the set?

4. How many triangles are there?

5. Where did tangrams originate?
