## Holiday Shopping: Decimal Practice 2

Help buy presents for others this holiday season! Answer the questions using the bookshelf filled with toys. Use drawings to help you solve the problems.

|   |   |   |  |   |   |
|---|---|---|--|---|---|
|  |  |  |  |  |  |
| \$10.75   | \$3.33  | \$4.50  | \$4.00   | \$12.55   | \$7.70  |
|  |  |  |   |  |  |
| \$6.99  | \$21.30   | \$13.40   | \$11.10  | \$3.34  | \$11.00   |

1. You're trying to buy as many different toys as possible to donate to the community center. You have \$100. What toys can you get? Will you have any money leftover? If so, how much money will you have left over?

2. Order the toys from cheapest to most expensive.

3. Share your answers with a partner. Talk about what operations you used (e.g., addition, subtraction, etc.) for your answers. Tell how you know you have the right answers.
