

# MINI MULTIPLICATION Book

$$3 \times 2 = ?$$

## MINI MULTIPLICATION VOCAB BOOK

### KEY INFORMATION

#### DIRECTIONS

Step 1: Cut out each mini-page.

Step 2: Staple the pages together in order.

Step 3: Use this book as a helpful resource as you complete the activities in this workbook.

#### MULTIPLICATION:

Factors are multiplied together to find the product or total, for example;

$$3 \times 5 = 15$$

KEYWORD #1

#### REPEATED ADDITION:

Adding the same number multiple times in order to find the total, for example;

$$4 + 4 + 4 = 12$$

KEYWORD #2

#### FACTOR:

One of two or more numbers that are multiplied together to find a product.

$$6 \times 4 = 24$$

factor

KEYWORD #3

#### PRODUCT:

The result when two numbers are multiplied together.

$$6 \times 4 = 24$$

product

KEYWORD #4
