

As Time Goes By...

It's Monday and Luis wants to decorate the house. Each house represents a different day. Can you label each house in the space provided with the correct day based on the information below?

The next day,
Luis puts a skeleton
out front.

Two days later,
Luis puts a pumpkin
out front.

A week after that,
a cat shows up
on the roof.

Three days later,
a spider spins
a large web.
